Outreach Message to Participants for Additional Consent
Wren Arbor's Thesis - Transfeminine Interactional Styles and Experiences
Spring 2026

I plan to send the supplemental consent form included in this addendum to participants in an email, the template of which is below.

Hello [name],

Thank you so much for participating in my research! I'm reaching back out to you because I have realized I would like to use an online service called DARLA to process the audio-recordings we made, but will only do so with your consent. As is detailed in the supplemental consent form attached, DARLA performs machine-transcription and will delete your data after processing it and will not use it for any other purposes. There is also the option to use DARLA with Deepgram to further automate transcription. In this case, Deepgram's servers may retain the data but they will not use it for any other purposes.

Please look over the supplemental consent form attached and feel free to let me know any questions or concerns you may have. If you feel comfortable and would like to consent, you can sign one of the two signature lines in the form digitally and send it back to me as a reply to this email.

Thank you,

Wren Arbor
