Fall 2025 IRB Proposal: Transfeminine Interactional Styles and Experiences
Recruitment of Participants: Procedure and Email Scripts

———Recruitment of speaker participants will be done using the posters attached. Posters will direct prospective participants to email me, to which I will respond with an email along these lines:

> Hello [name],
>
> I'm happy to hear you're interested in participating! To recap the details you saw on the poster, participation would entail three 20-30min audio-recorded conversation sessions in Eliot 101D with each of my participants, and filling out a 10-15min survey about yourself, totaling approximately 1h30min. You would earn $30 for your time. Attached is a consent form with more information on the project. There are places to sign on there, but you don't need to worry about that yet. Let me know if you're interested or have any questions!
>
> Best,
> Wren Arbor (she/her)

———I will recruit interlocutor participants directly from friends or friends-of-friends, as their participation will be a higher level of commitment. I intend to ask them if they would be interested in helping me with my thesis face-to-face if possible, and if they seem interested, I will then send them an email along these lines:

> Hello [name],
>
> My thesis research is focused on transfeminine people's interactional styles, and I'm looking for a [cis/trans] woman conversation partner to talk with my participants. Participation would entail five 20-30min audio-recorded conversation sessions in Eliot 101D with each of my participants, and filling out a 10-15min survey about yourself, totaling approximately 2h15min. You would earn $50 for your time. Would you be interested in helping me out? Attached is a consent form with more information on the project. There are places to sign on there, but you don't need to worry about that yet. Let me know if you're interested or have any questions!
